

## NEW TIRE LIMITED WARRANTY:

### What is covered and for how long:

Mavis Discount Tire (Mavis) warranties to the original consumer/purchaser that if a tire becomes unserviceable, in private non-commercial passenger car use as a result of defect in workmanship and material during the tread life (defined below) of the tire, it will be replaced with an equivalent new tire. You will receive a pro-rated credit based upon the remaining useable tread depth of the unserviceable tire to be applied against the current selling price of the replacement tire.

### How credit is determined:

If a tire covered by this warranty becomes unserviceable due to a defect in workmanship or materials (tire separation, out of round, tread cracking, belt edge wear, etc...) during the useable tread life of the tire (useable tread depth is the original tread depth minus 2/32nds of an inch), you will receive a credit for the amount of usable tread remaining on the unserviceable tire based upon your original purchase price (example: 60% useable tread remaining times(x) the original purchase price of \$40 equals a credit of \$24.) This credit will be deducted from the current selling price of the replacement tire.

### What is not covered:

This warranty does not cover tires which become unserviceable due to:

1. Conditions resulting from road hazards, such as:  
(A) cuts, (B) snags, (C) punctures, (D) impact breaks.
2. Conditions resulting from: (A) improper installations, (B) wheel misalignment, or (C) tire/wheel assembly imbalance.
3. Conditions resulting from consumer damage, such as: (A) improper tire and vehicle maintenance, (B) misuse, (C) abuse, (D) accident.
4. Tire uniformity complaints after the first 2/32nds inch tread wear.

## LIMITED MILEAGE (TREADWEAR) WARRANTY:

### What is covered and for how long:

Some tires purchased from Mavis Discount Tire are warrantied by Mavis against tread wear-out for a specific number of miles under normal passenger (non-commercial) use. If your purchase does include this warranty it will be stated on your receipt. If our examination shows that your tire(s) did not attain warranted mileage when proper service procedures were followed (tires properly inflated, vehicle in alignment and properly maintained, and tires rotated in accordance with prescribed rotation patterns every 5,000 miles), the tire(s) will be adjusted on a pro-rata basis, crediting you for an amount equivalent to the percentage of mileage not attained, towards the current selling price of the new replacement tire. Dealer services such as mounting, balancing and applicable state and federal (FET) taxes are not covered by this warranty.

### Owners Obligations:

Proper tire care is necessary to obtain the maximum mileage and wear from a tire. It is your obligation to see that your tire/wheel assemblies are in balance and properly aligned, that your tires operate at vehicle manufacturer's recommended cool inflation pressures and that your vehicle is well maintained. Check the air pressure in each of your tires, including the spare, at least monthly when tires are cool. Mavis Discount Tire will check alignment, treadwear, tire pressure and the mechanical condition of the vehicle anytime, at no charge, at any Mavis Discount Tire location.
